DTG Textile Printer

Product Description

Techinical Parameters	CO-SP1024		CO-SP1800-2	
Print Method	2/4/8 Starfire micro piezo Spray Heads			
Print Resolution	720dpi*800dpi			
Print Speed				
Mode	2Heads (4color)	4Heads (4color)	8Heads (4color)	8Heads (8color)
1pass	/	/	/	/
2pass	95m2/h	155m2/h	310m2/h	155m2/h
3pass	66m2/h	110m2/h	220m2/h	110m2/h
4pass	46m2/h	85m2/h	170m2/h	85m2/h
Print Width	1800mm/2000mm/2600mm/3200mm			
Fabric Width	1800mm/2020mm/2620mm/3220mm			
Suitable Fabric	Cotton,Linen,Wool,Silk,Polyester etc all other fabrics			
Color	CMYK LC LM Grey Blue Red Flurescent Yellow			
Ink Type	Acidity,Reactive,Disperse,Coating Ink all compaiblity			
Power	Single phase AC Earth wire 220V±10% 15A 50HZ			
Environment	Temerature 18~30℃,Relative humidity 35~80%(non condensing)			
Overall size	3950(L)*1900(W)*1820(H)MM	3950(L)*1900(W)*1820(H)MM	4550(L)*1900(W)*1820(H)MM	4850(L)*1900(W)*1820(
Weight	800kg	1500kg	1800kg	2000kg

Advantages of Textile Printers

1. It is suitable for any material with wide compatibility.

2. No plate-making, fast printing and low cost, you can use a variety of output software to support a variety of file formats.

3. Equipped with professional color management software, you can change the color anytime and anywhere without paying extra fees.

4. One-step completion, i.e. print-and-fetch, to meet the needs of rapid production of finished products.

5. Printing a large number of units can be matched with template printing, time-saving and labor-saving, full-color image, complete at one time, progressive color completely achieves photo quality effect, accurate positioning, zero rejection rate.

7. It takes only 30 minutes to master and produce high-quality products without professional skills.
